

12.06.2015

BOGAZICI has signed a contract with BUGSIER, Reederei-und Bergungs – Gesellschaft MbH. & Co. Kg of Hamburg / Germany for building 32,00 m Loa, 80 Tbp Multi-purpose ASD Tug Boat "BOGAZICI 23" for delivery in 2016.

In order to extent their fleet, Bugsier-, Reederei- & Bergungs-Gesellschaft GmbH & Co. KG have ordered new building tug boat which will increase the fleet and extend the fields of application.

One order has been placed with BOGAZICI. The new tug is planned under most modern aspects and is designed by Cintraval-Defcar / Spain. It will measure 32,00m x 12,50m x 5,60m and will be featured with an open stern for anchor handling duties. The propulsions of 2 Schottel SRP 4000 CP will be powered by 2 x ABC 12 DZC-1000-168A, 2 x 2500 kW with a bollard pull of at least/minimum 80 tonnes. In addition, the new tug will be equipped with a FIFI 1 fire fighting system and 2 Kraaijeveld double drum winches, each forward and aft, which guarantees demanding offshore-, salvage-, and firefighting-services.

Bugsier-, Reederei- & Bergungs-Gesellschaft GmbH & Co. KG decided to order this special tug, which will most probably be named "**BUGSIER 11**", to best meet the needs/requirements of their customers for strong and modern tonnage both offshore and in port.

About Bugsier-, Reederei- & Bergungs-Gesellschaft GmbH & Co. KG:

Bugsier-, Reederei- & Bergungs-Gesellschaft GmbH & Co. KG is based in Hamburg and operates/possesses/commands/disposes the largest tug fleet flying the German flag. All 28 tugs are certified according to the highest ISO and oil & gas standards. They mainly perform/work/serve in the ports of Wilhelmshaven, Bremerhaven/Bremen, Brake, Brunsbüttel, Bützfleth and Hamburg as well as for the European offshore oil & gas industry for decades and the flourishing wind energy market. Furthermore, the company works with own pontoons, floating cranes and oil spill response equipment. In addition to excellent technical know-how, the company acts on the basis of a modern and progressive quality-, safety- and environmental protection-Management system according to the highest standards of safety, quality, conservation and the sustainable use of resources and welfare of employees. The companies' German crews are internationally recognized because of their excellent training and qualification according to the strict German as well as international standards. This year, the German Chamber for Maritime Training BBS (Berufsbildungsstelle Seeschifffahrt e.V.) awarded the company as "Excellent Training Company 2015".
