

Second newbuilding from Turkey for SMIT is the SMIT AFRICA

photo: Hans van der Ster

New deliveries: *Smit Africa* completed her trials to be delivered to the owners on 21 November, 2007. Sister *Smit Europe* was delivered earlier this year. Formally delivered to SMIT Internationale Sleepbootmaatschappij – SMIT Salvor BV., the Cintranaal Defcar designed vessel was built as *Bogazici 2* on the Ge-Ta shipyard in Tuzla under yard number 007. Immediately after delivery the tug was contracted – under management from SMIT Singapore - for the salvage of *MOL Discovery* grounded in the Red Sea at Ras Shukeir.
